

Hansa Medical

Bulletin from the Extraordinary General Meeting of Hansa Medical AB
(publ)

Lund, Sweden, 11 December 2018 - Hansa Medical AB (PR Newswire) (Nasdaq Stockholm: HMED) (“Hansa Medical” or the “Company”), today held an extraordinary general meeting. The extraordinary general meeting resolved to change Hansa Medical’s company name to Hansa Biopharma AB, in accordance with the board of directors’ proposal.

“The new name Hansa Biopharma emphasizes our focus on the development and commercialization of biological drugs, biopharmaceuticals. This refinement of our profile is particularly important for the continued internationalization of our business and our investor base.” said Søren Tulstrup, President and CEO of Hansa Medical.

Today, the Company has further submitted the resolution and the new company name for registration to the Swedish Companies Registration Office. The launch of the Company’s new name, including updated web page and graphical profile, is expected to take place on or about the beginning of 2019.

The information was submitted for publication, through the agency of the contact persons set out below, on December 11, 2018 at 1:00pm CET.

About Hansa Medical

Hansa Medical (Nasdaq Stockholm: HMED) is a biopharmaceutical company developing novel immunomodulatory enzymes for organ transplantation and acute autoimmune diseases. The Company’s lead product, imlifidase, is a proprietary antibody-degrading enzyme in late-stage clinical development for kidney transplant patients and has significant potential for further development in other solid organ transplantation and in acute autoimmune indications. Hansa also has a strong pipeline of preclinical projects that may provide a second wave of potential drugs. Under the project name NiceR, the Company is developing novel immunoglobulin-cleaving enzymes for repeat dosing in relapsing autoimmune diseases and oncology. Hansa Medical is based in Lund, Sweden.
