

PRESS RELEASE

Hansa Biopharma: Increase of the number of votes

Lund, Sweden, July 31, 2023. Hansa Biopharma AB “Hansa” or the “Company”, (Nasdaq Stockholm: HNSA), the pioneer enzyme technology for rare immunological conditions, today announces that the number of outstanding votes in Hansa have increased during the month of July 2023 as a result of the conversion of a total of 227,834 class C shares to a total of 227,834 ordinary shares.

The conversion was carried out by Hansa in order to deliver ordinary shares to participants in Hansa’s incentive program adopted at the annual general meeting in 2020 and to secure social contributions arising as a result of the incentive program. The total number of votes in Hansa has therefore increased while the total number of shares remain unchanged.

As of today, the total number of registered and outstanding shares of Hansa amounts to 55,034,241, whereof 52,671,796 are ordinary shares and 2,362,445 are class C shares. As of today, the number of votes in Hansa amounts to 52,908,040.5, and the registered share capital amounts to SEK 55,034,241. At the time of this press release the Company holds in treasury all class C shares and 52,577 own ordinary shares.

This information is information that Hansa Biopharma AB is obliged to make public pursuant to the Financial Instruments Trading Act. The information was submitted for publication on July 31, 2023, at 08:00 CEST.

About Hansa Biopharma

Hansa Biopharma is a pioneering commercial-stage biopharmaceutical company on a mission to develop and commercialize innovative, lifesaving and life altering treatments for patients with rare immunological conditions. Hansa has developed a first-in- class immunoglobulin G (IgG) antibody cleaving enzyme therapy, which has been shown to enable kidney transplantation in highly sensitized patients. Hansa has a rich and expanding research and development program, based on the Company’s proprietary IgG-cleaving enzyme technology platform, to address serious unmet medical needs in transplantation, autoimmune diseases, gene therapy and cancer. Hansa Biopharma is based in Lund, Sweden and has operations in Europe and the U.S. The Company is listed on Nasdaq Stockholm under the ticker HNSA. Find out more at hansabiopharma.com.
